Diagram illustrating a binary tree structure with nodes labeled 0 through 5. The nodes are arranged in a grid. The root node is 0. The nodes are labeled with their binary values: 0 (000), 1 (001), 2 (010), 3 (011), 4 (100), 5 (101). The nodes are connected by arrows indicating the tree structure. The nodes 1, 2, 3, 4, and 5 are highlighted in yellow. The node 0 is highlighted in green. The node 1 is highlighted in red. The node 2 is highlighted in blue. The node 3 is highlighted in red. The node 4 is highlighted in red. The node 5 is highlighted in red. The node 0 is highlighted in green. The node 1 is highlighted in red. The node 2 is highlighted in blue. The node 3 is highlighted in red. The node 4 is highlighted in red. The node 5 is highlighted in red. The node 0 is highlighted in green. The node 1 is highlighted in red. The node 2 is highlighted in blue. The node 3 is highlighted in red. The node 4 is highlighted in red. The node 5 is highlighted in red. The node 0 is highlighted in green. The node 1 is highlighted in red. The node 2 is highlighted in blue. The node 3 is highlighted in red. The node 4 is highlighted in red. The node 5 is highlighted in red. The node 0 is highlighted in green. The node 1 is highlighted in red. The node 2 is highlighted in blue. The node 3 is highlighted in red. The node 4 is highlighted in red. The node 5 is highlighted in red. The node 0 is highlighted in green. The node 1 is highlighted in red. The node 2 is highlighted in blue. The node 3 is highlighted in red.
